CAREER OBJECTIVE

Motivated and fast-learning Junior Software Engineer with a strong foundation in software development and a growing passion for data-intensive applications. leveraging my problem-solving skills, eagerness to learn, and interest in scalable system design.

EDUCATION

N.K. Orchid College of Engineering and Technology, Solapur *2020 - 2024*
Bachelor of Technology (E&TC) | CGPA – 7.0/10

D.B.F. Dayanand College of Arts and Science, Solapur *2018 - 2020*
Higher Secondary Certificate | Examination Score - 54%

S.H.N. High School, Solapur *2017 - 2018*
Secondary School Certificate | Examination Score – 66.40%

ACADEMIC PROJECTS

Job Listing | **GitHub** *Nov 2024 – Dec-2024*

- **Description**: Developed a "Job Listing" platform designed to connect job seekers with potential employers, featuring an intuitive user interface and robust backend functionality.
- **Technologies Used**: **Spring Boot** and **Java** for the back-end; **MongoDB** for efficient database management.
- **Key Features**: Job postings, dynamic search filters, application management, and a simple, intuitive interface for searching and managing job listings. The platform ensures responsive design for optimal user experience across devices**.**

EstatEase *Mar 2024 - May 2024*

- **Description**: Developed "**EstatEase**," a comprehensive real estate website aimed at simplifying property management and enhancing user engagement through a sleek, intuitive interface.
- **Technologies Used**: **React, HTML, CSS, and JavaScript** for the front end; **Spring Boot** and **Java** for the back end; **MySQL** for robust database management.
- **Key Features**: Property listings, user authentication, dynamic search filters, interactive map integration, and a secure, streamlined process for booking viewings and inquiries. The site also features a responsive design and an intuitive user experience, ensuring seamless functionality across devices.
- **My Contribution**: Contributed to front-end development using **HTML, CSS** to create a responsive and user-friendly interface. Implemented key features such as property listings and ensured a smooth and visually appealing user experience.

INTERNSHIPS

Java Full-Stack Development - From The Kiran Academy *Nov 2024 – Apr 2025*

- Built **end-to-end web modules** using **Spring Boot (backend)** and **Angular/React (frontend)**.
- Created reusable UI components with **HTML, CSS, JavaScript**, ensuring responsive and cross-browser compatibility.
- Developed **REST APIs** and integrated them with front-end services for seamless data flow.
- Optimized SQL queries and practiced **database design** in **MySQL & MongoDB**.
- Applied **OOPs concepts** and design patterns in coding assignments and projects.
- Actively used **Git/GitHub** for version control and **Maven** for dependency management.
- Participated in **code reviews and debugging sessions**, improving problem-solving and coding efficiency.

TECHNICAL SKILLS

- **Back-End: Java, Spring boot.**
- **Front-End: HTML, CSS, JavaScript.**
- **Database: MySQL, MongoDB.**
- **Operating Systems: Windows 10, 11, LINUX**

OTHERS

- **Strengths**: Strategic Thinker, Proactive Learner, Self-motivated
- **Hobbies**: Tech Blogger, Internet Enthusiast, Avid Traveller, Music Aficionado
- **Languages**: English (Fluent), Hindi (Fluent), Marathi (Native), Kannada (Conversational)
